

The Welsh Opto-electronics Forum are pleased to announce the following Seminar, at which a presentation of the new Photonics & Plastic Electronics KTN will be given (the PKTN ended on 31.8.09). Please pass the details on.

Lasers – Applications & Instrumentation

09:45~14.00 Thursday 17th September, 2009

at OpTIC Technium

DRAFT Event Programme:

- 09.45** Welcome & Introduction
Dave Hughes, General Manager Qioptiq Space Technology
Chair Welsh Opto-electronics Forum
- 10.00** LASSI (Laser Air Speed Sensor Instrument) Lasers for Manufacturing & Sensing
Jagjit Sidhu, BAE Systems
- 10.30** ALICE (Accelerated Lasers in Combined Experiments) & Free Electron Lasers
Brian Fell, Daresbury Innovation Labs
- 11.00** Laser/x-ray combinations
Prof Andy Evans, Aberystwyth University
- 11.30** Lasers in medical applications
Name to be advised
- 11.00** Update on the Photonics & Plastic Electronics KTN
Ian Tooley/Alastair Wilson

Lunch & Networking

The WOF AGM will take place immediately after lunch

Table Tops will be available

Attendance at the Event is free of charge.
